School History

To touch Greater Heights, to move forward with zeal, to work
towards professional excellence...to nurture leaders of tomorrow!!

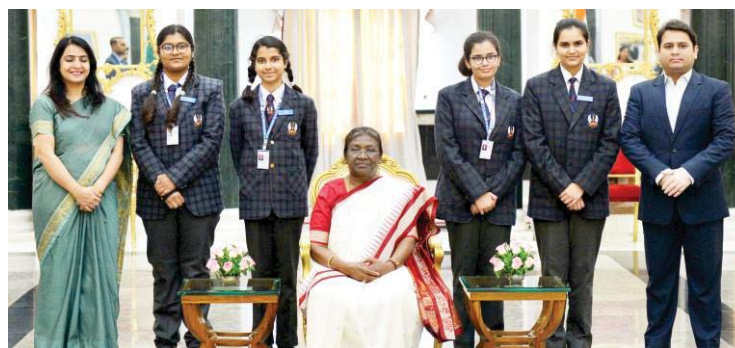

Meerut Public Girls' School is committed to nurture students with love and care to promote education and human values in the society. it endeavours to inculcate inherent skills and to empower the young generation especially girls' physical, emotional and intellectual skills through conducive and quality education.

"Girls are blossoms who, when taken care with love and care, accord unparalleled joy with their myriad hues and fragrances" with such lofty idea the foundation of Meerut Public Girls' School, Shastri Nagar was laid in the year 2001 by Mrs. and Mr. T.C. Shastri. The beginning was humble but the vision was big and farsighted. Now an institute to reckon with, it has become a hub of learning with nearly 4000 students. A formidable structure, fully equipped labs, an enlightened, experienced and motivated staff, special coaches and smart classes in safe and secured environment under CCTV Cameras have all gone a long way in creating a name in the city.

The carefully chosen curriculum imparts extensive knowledge of prevalent discipline. The school believes in shrinking the world by creating global citizens and the school holds the honour of being the first school in the city to usher in this direction with an outstanding ISA award twice over and the school has been designated as the ambassador school by the prestigious British Council. Activities like art, painting, music, dance, elocution and dramatics receive as much attention as athletics, yoga, skating, games and sports.

Believing firmly in a holistic development, ample opportunities are provided to all students to participate in co-curricular activities. To transform them into responsible, empathetic and true caretakers philanthropy trips and awareness campaigns are organized time and again. The most striking feature is that our meritorious students have been All India Rank Holders in AISCSE for last four consecutive years and have been honoured and awarded by Honourable CM Yogi Adityanaath Ji.

Moreover, The school intends to create an atmosphere of openness, intellectual curiosity, discipline, humility and a scientific temperament which is essential to the unfettered growth of a young mind.

Curriculum

CURRICULUM

The school abides with “core essentials” and thrust on “experiential learning and critical thinking” as the major strike through of NEP 2020.

Our curriculum design fosters a dynamic and engaging educational environment that reflects latest pedagogical advancements and the evolving needs of the students. It resonates with the National Curriculum Framework and our commitment to providing a well rounded and comprehensive learning environment.

The “10 + 2” structure will be replaced with “5 + 3 + 3 + 4” model.

Foundational Stage: This is further subdivided into two parts: 3 years of pre-school followed by classes 1 and 2 in primary school. The focus of studies will be on activity-based learning.

Preparatory Stage: Classes 3 to 5, which will cover the ages of 8–11 years. The school has introduced modified learning skills combined with speaking, reading, writing, physical education, languages, art, science and mathematics.

Middle Stage: Classes 6 to 8, covering children between ages 11 and 14. We encourage the middle students to grasp more abstract concepts in subjects of mathematics, sciences, social sciences, arts and humanities. An activity based learning along with virtual interactive session is the core of the crux.

Secondary Stage: Classes 9 to 12, covering the ages of 14–19 years. It is again subdivided into two parts: classes 9 and 10 covering the first phase while classes 11 and 12 covering the second phase. These 4 years of study are intended to inculcate multidisciplinary study, coupled with depth and critical thinking. Multiple options of subjects will be provided.

The school hails the policy that aims at reducing the curriculum load of students and allowing them to be more “inter-disciplinary” and “multi-lingual”.

The school aims at incorporating skills and vocational education preparing students to meet the demands of the modern workforce.
